

AC/FTS Sailor Guide to CMS-ID Application Flags

Application Eligibility Flags inform you of Navy policies that relate to your application or issues that may affect your assignment to the job. Flags are displayed when you attempt to submit an application and must be acknowledged before the submission can be finalized. Acknowledged Flags are then captured in your Alert History, accessible through your Personnel Detail. Flags will not stop you from submitting your application, but you should take note of any actions required on your part to resolve the situation described in the Flag text.

The following CMS-ID Application Flags are applicable to AC and FTS Sailors:
